PAPERWORK

The problem

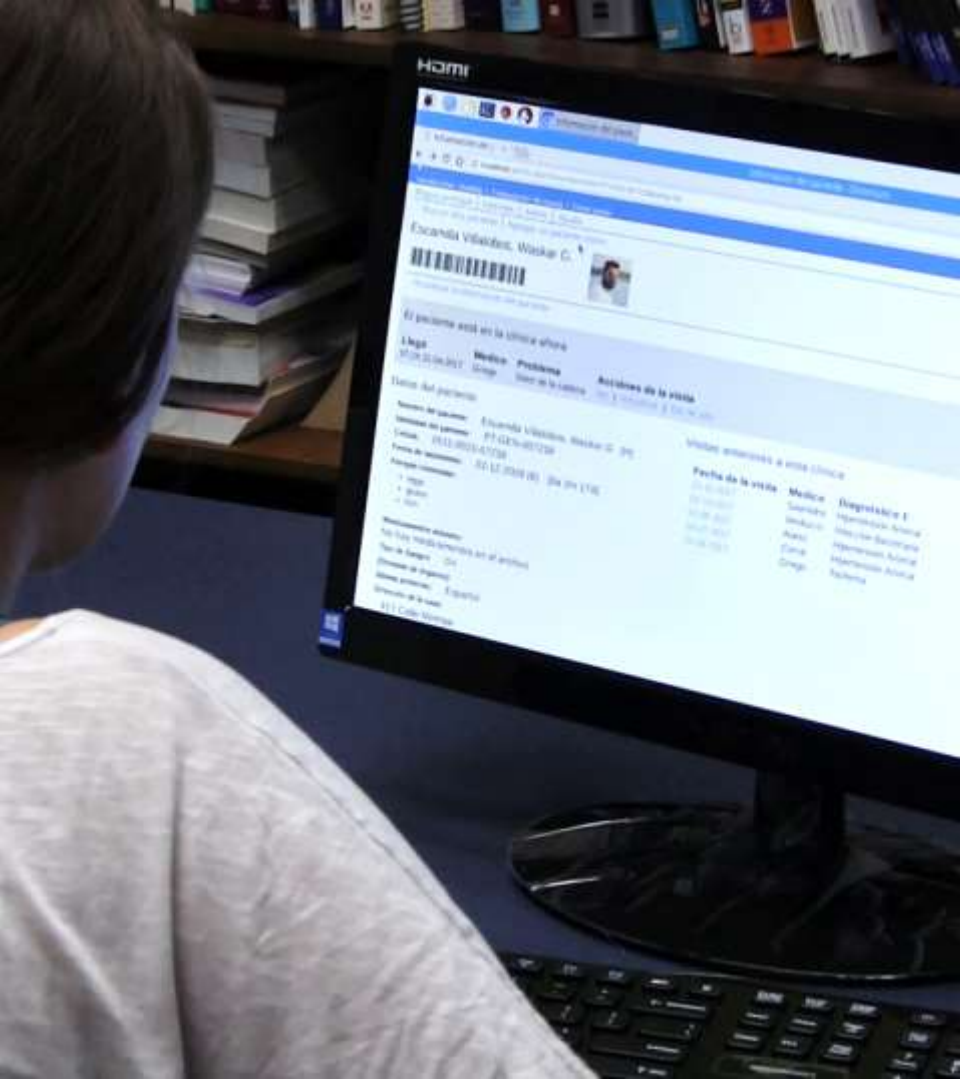

- Small clinics record patient activity on paper
- Easy to fill out & store
 - Difficult to analyze & report
 - **>10% of clinic work is spent on paperwork**

The mission

Install *piClinic* patient-record systems in at least three clinics on the bay island of Roatán.

- Reduce paperwork
- Increase clinic insights

The work

- Observe system use
- Install piClinic consoles
- Instruct clinic staff
- Interpret Spanish
- Manage social media

- **Change the World**

The location
